USE OF ICT TOOLS IN CHATIA COLLEGE: AN OVERVIEW

The institute, despite its infrastructural deficiencies and the lack of financial aid or regular reliable income generating sources has limited ICT usage and Laptops, Projectors and Smartphones are used extensively along with applications such as Google Meet, Zoom, Whatsapp, Gmail, YouTube etc. Teachers are also given online training in the use of ICT in the classroom for effective curriculum delivery, and virtual seminars on employability, Intellectual Property Rights (IPR) and National Education Policy (NEP) were organized for both teachers and students. Internet browsing facility is provided to the students in a single desktop computer and Wi-Fi is available within the premises of the library hall. A huge collection of e-books and articles in PDF format is made available to the students for offline reading in the library computer itself. Departmental libraries are also in the process of being linked to the central library digitally which is sure to benefit both the teachers and the students.

ICT ACADEMY SKY CAMPUS VIRTUAL POWER SEMINAR ON

"FUTURE OF WORK"

HOSTED BY INTERNAL QUALITY ASSURANCE CELL CHATIA COLLEGE, ASSAM ON 12TH FEBRUARY 2022 AT 11.30 AM - 1.00 PM

The Information and Communication Technology Cell of Chatia College in collaboration with ICT Academy, Tamil Nadu, organized a "Virtual power Seminar" for the students of all the semesters. The topic of the seminar, "Future of Work", aimed at giving the students a comprehensive idea on how the work environment in most sectors has shifted from the confines of offices to the homes of the employees and wherever they feel most comfortable in.

Initially the seminar was organized to enable the students to attend from the comfort of their homes and for which they were required to

register for the event beforehand. The teachers of the college familiarised the students with the online registration process and encouraged more and more students to register for the same. However, a great number of students who did not have a smartphone in their homes expressed an interest to attend the event. The ICT Cell with the help of the IQAC of Chatia College, arranged for the event to be live-streamed in a classroom where all the interested students were able to participate in the event.

The seminar was inaugurated by the Vice-principal of Chatia College, Mr. Anuj Kumar Saikia who welcomed the participating students as well as the three distinguished speakers of the seminar stressing on the need of organizing more virtual events which would enable students of rural institutions have access to knowledge beyond their own institution, region, and state.

The first speaker, Lovetesh Kumar, Project manager of ICT Academy, discussed the changing future of the working environments in India and the world and how it allows for more flexibility in working hours and thereby increasing the amount of work done.

The second speaker, Sagar Radhi, Associate Principal, Bristlecone, gave a comprehensive idea regarding what to expect in the post-pandemic world job sector. He actively engaged the students in a lively session encouraging one and all to participate by answering poll questions in the chat box and himself answering questions posted by students.

The third speaker, Hemant Lamba, Manager, Veritas, gave a glimpse of how to approach the various job sectors of the pandemic-hit world touching upon the newly emerged and gradually emerging opportunities for job-seekers.

Mr. Biplob Dasgupta, Relationship Manager- North East, ICT Academy, co-hosted the seminar. At the conclusion of the event, Dr. Kangkan Bhuyan, Coordinator of ICT Cell, Chatia College, extended a hearty vote of thanks to the organizing fraternity of Chatia College and ICT Academy, the three distinguished speakers for their thoughtful deliberations, hoping for a long-term association with ICT Academy to conduct more of such student-centric events.

Image above: Large scale participation of students contributed to the success of the event.

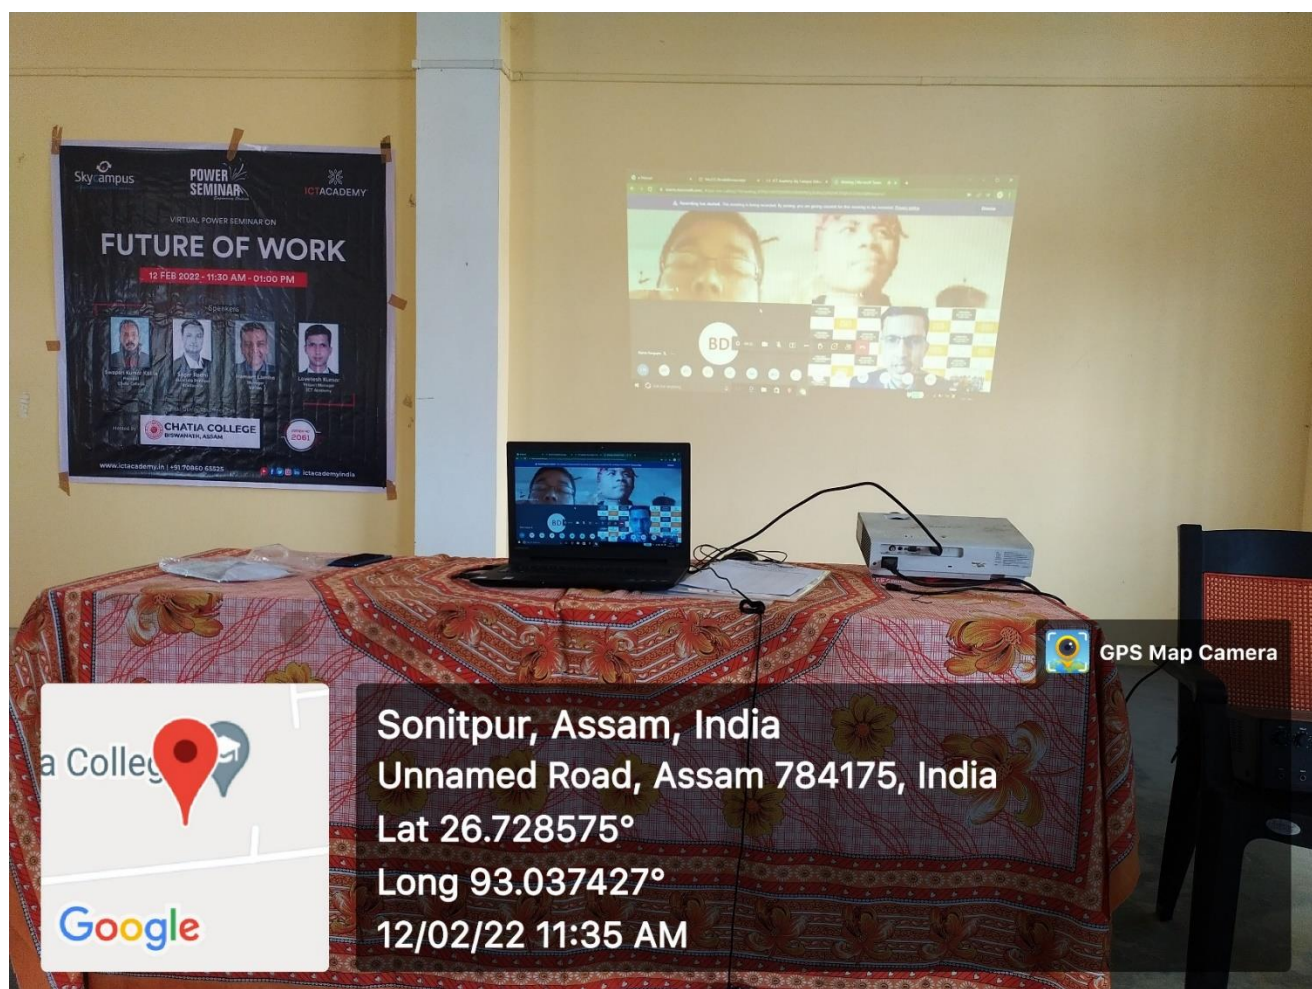

Image above: The entire seminar was live-streamed by the ICT Cell of Chatia College for the students who did not have any smartphone and were unable to register for the event.

Image above: The event being viewed from smartphones as well as wall-projection.
